Steels

Stainless Steels

Super Alloys

Titanium

3412 Series Fantom 2.0 End Mill:

- Increase tool life by up to 30% with our 5-flute performance end mill.
- Enhanced edge strength increases productivity and lowers costs per part.
- A stable, robust cutter that allows for heavier chip loads.
- FC-20 Coating significantly lowers operating cutting temperatures compared to other coatings.
- Available in Stub, Standard, Extra Long, and Long Reach lengths.
- h6 tolerance for conventional and shrink fit applications.
- Chipbreakers available upon request.
